

OC Pepper Spray / Safariland Public Carry

A One Day (4 hour) training course focused on teaching basic fundamental skills of Oleo Resin Capsicum or OC spray to the general public.

This training course is specifically designed to assist students with knowledge of OC, its usage, aim points for different spray patterns and decontamination if necessary. Skill development with emphasis set on first person usage against attackers. This is done through lecture, hands on simulations and controlled active agent training.

Pre-requisite: NONE – OPEN TO ALL

The following firearms training topics will be covered:

- OC usage
- OC safety
- Natural reaction to OC
- Mental conditioning/control
- Developing tactical awareness
- Target distance and acquisition
- Methodology of use
- Usage in a stressed environment
- Safe operation and control
- Storage
- Shelf Life
- Threat assessment/area scanning
- Malfunction issues
- Ineffectiveness
- Tactical handling skills
- UV Dye / Mix blends
- Presentation / carry techniques
